

Party hats

That's what you need in Material:

- Black paper A3
- Scissors
- Compass
- Glittery garland
- Elastic band
- BLANCOL Glue stick
- BLANCOL Glitter Glue

1. Draw a circle with a radius of about 20 cm on your sheet and cut the circle into 4 equal parts.

2. Then glue the two straight sides with the BLANCOL glue stick approx. 5 mm on top of each other and let them dry well. With a needle you can thread in the elastic parallel on both sides and fix it with a button on the inside of the hat. The elastic should be about 30 cm long so that it holds on to the head and does not fit too tightly.

3. Now you can give your party hats creative decorations. We have glued a garland along the edge and painted golden dots and lettering with BLANCOL Glitter Glue.
