

## Dragons made out of toilet rolls

Material required:

- Toilet rolls
- Coloured paper
- Tissue paper
- Fabric ball
- Wobbly eyes
- BLANCOL Glue Stick
- BLANCOL All Purpose Adhesive
- Scissors

**1.** First cut the paper to the width of the toilet roll. The length doesn't matter, as long as the paper reaches 1 x around the roll. Use the BLANCOL glue stick to glue the paper well to the roll.

**2.** From the tissue paper you can now cut out flame-shaped paper strips.

These are then glued to the inside of the toilet roll with BLANCOL All Purpose Adhesive or BLANCOL Glue Stick. However, only cover one half of the roll with the strips.

**3.** The fabric balls are now glued to the toilet roll with the special adhesive TEXTILE. These should be on the half with the "flames" on it. To do this, glue the two larger fabric balls to the rear end without the flames and the two smaller ones directly above the flames.

4. On each of the two bigger fabric balls you glue a wobble eye and your dragon is finished.
