

Mosaic coaster

Material required:

- Cork mat
- Coloured paper
- Mosaic stones
- Scissors
- BLANCOL special adhesive MOSAIC

1. If you have a cork mat which has an adhesive strip on one side, carefully remove it and stick your coloured paper on it, otherwise you can also stick the paper on one side of the cork mat with the BLANCOL special adhesive NATMAT. Allow to dry well.

2. With the BLANCOL special adhesive MOSAIC, the mosaic stones can now be glued to the side with the paper. The cork side later serves to prevent the coaster from moving too much on the table. Let everything dry well and the mosaic coaster is ready.
