**Folding card „Bouquet"**

Material required:

- Coloured paper
- Folded card
- Pencil
- Scissors
- BLANCOL glue stick
- BLANCOL All purpose adhesive
- BLANCOL Glitter Glue

1. First cut the coloured paper into 7 equally sized squares (approx. 5x5 cm) and fold the individual pieces together as follows:

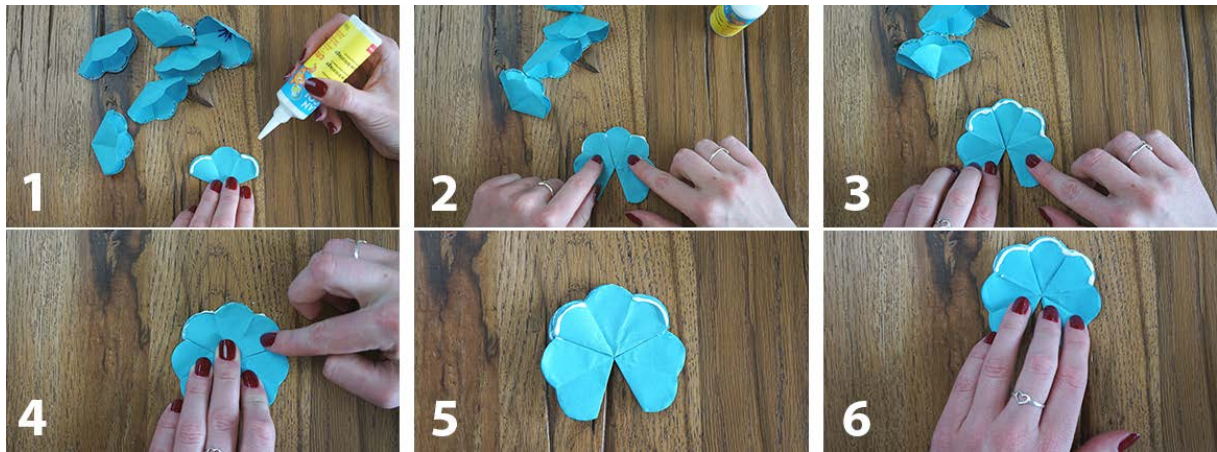

2. Now draw a semicircle on one of the folded triangles and cut it out. If you like the shape, you can use this "flower" as a template for the others.

3. Now cut one petal out of all seven flowers. Now you can paint the flower or decorate it with BLANCOL Glitter Glue. Make sure that a petal next to the opening remains free, as this is stuck to the rear petal after it has been decorated with the BLANCOL Glue Stick.

4. When you have all the flowers ready, you can glue them together with the BLANCOL all purpose adhesive as follows:

5. Now glue the top flowers of the bouquet into the card with the BLANCOL all purpose adhesive, allow to dry well and your homemade folding card is ready to go.
